

GIOVANNI TOTO

University of Padova, Department of Statistical Sciences
via Cesare Battisti, 241-243 35121 Padova, Italy.
giovanni.toto@phd.unipd.it

ABOUT ME

DATE OF BIRTH: May 12, 1997
PLACE OF BIRTH: Padova, Italy
NATIONALITY: Italian

CURRENT POSITION

OCT. 2022 - ONGOING	PhD student in Statistics Department of Statistical Sciences, University of Padova Supervisor: Antonio Canale
---------------------	--

EDUCATION

OCT. 2019 - MARCH 2022	Master's degree in Statistical Sciences Department of Statistical Sciences, University of Padova Thesis title: A Topic Modeling Algorithm for Microblogs Supervisor: Emanuele Di Buccio Final mark: 110/110 cum laude
OCT. 2016 - NOV. 2019	Bachelor's degree in Statistics for Technology and Science Department of Statistical Sciences, University of Padova Thesis title: Design and Implementation of a Video Search Engine and a Graphical User Interface for Sentiment Analysis Supervisors: Massimo Melucci, Emanuele Di Buccio Final mark: 101/110

RESEARCH ACTIVITIES

JUNE 2022 - OCT. 2022	Research fellowship Department of Statistical Sciences, University of Padova Title: Development of R libraries for the implementation of Bayesian models for sc-RNA-seq data Supervisors: Antonio Canale, Davide Risso Implementation in R and C++ of Bayesian models for sc-RNA-seq data.
MARCH 2020 - APRIL 2020	Research fellowship Department of Information Engineering, University of Padova Title: Design, implementation, and use of a computer system for online acquisition of multimodal documents and real-time opinion analysis Supervisor: Massimo Melucci Design and implementation of a graphical interface allowing real-time analysis of opinions expressed in a video through multimodal sentiment analysis.

RESEARCH INTERESTS

- Bayesian nonparametrics
- Density estimation
- Functional data analysis
- Random partition models
- Tensor factorization

PUBLICATIONS

- [1] Li, Q., Stefani, A., Toto, G., Di Buccio, E., & Melucci, M. (2020). Towards multimodal sentiment analysis inspired by the quantum theoretical framework. *3rd IEEE Conference on Multimedia Information Processing and Retrieval, MIPR 2020, Shenzhen, China, August 6-8, 2020*, 177–180
- [2] Toto, G., & Di Buccio, E. (2022). A modular approach to topic modeling for heterogeneous documents. In G. Pasi, P. Cremonesi, S. Orlando, M. Zanker, D. Massimo, & G. Turati (Eds.), *Proceedings of the 12th italian information retrieval workshop 2022, milan, italy, june 29-30, 2022*. CEUR-WS.org

CONFERENCE PRESENTATIONS

- [1] Contributed talk: A modular approach to topic modeling for heterogeneous documents; IIR 2022, Milan, Italy (June 2022).
- [2] Poster: Local Bayesian clustering for functional data; BAYSM 2024, Venice, Italy (June 2024).
- [3] Poster: Local Bayesian clustering for functional data; ISBA 2024, Venice, Italy (July 2024).

LANGUAGES

ITALIAN: native
ENGLISH: advanced

PROGRAMMING SKILLS

ADVANCED: PYTHON, R
INTERMEDIATE: C++, \LaTeX , mysql
